FAN VA TURMUSH MAGAZINE IS 90 YEARS OLD!

Under the auspices of the Uzbekistan Academy of Sciences, for many years, the popular science magazine “Fan va Turmush”, widely known in the country and outside Uzbekistan as “Science and Life”, has been published, which began its educational activities in the field of science back in 1933 and celebrated its 90-th anniversary in 2023.

In this journal, many academicians and employees of academic scientific institutions of the country were actively collaborated and published their popular science articles in various fields of science and presented their new scientific results and the scientific achievements they received, which are of interest to the general public and youth of the country. In recent years, issues of Fan va Turmush magazine began to be published in colorful well-illustrated publications, and special thematic issues were also covered in them.

At different times, the chief editors of the Fan va Turmush magazine were the first president of the Uzbekistan Academy of Sciences, academician T.N. Kary-Niyazov, vice-president of the Uzbekistan Academy of Sciences, academician I.M. Muminov, academician laureate of the Lenin Prize Y.Kh. Turakulov, famous academician-economist M.Sh. Sharifkhodzhaev, and others authoritative scientists of Uzbekistan, and in the period from 2002 to 2022 - academician Sh.A. Egamberdiev - Director of the Mirzo Ulugbek Astronomical Institute of the Uzbekistan Academy of Sciences. In recent years, Fan va Turmush magazine has been published in a fairly large circulation on the basis of this Institute.

In February 2023, the academician of the Uzbekistan Academy of Sciences and the Academy of Arts of Uzbekistan, the well-known art scientist Akbar Abdullaevich Khakimov, the head of the Center for Promotion of Science Uzbekistan Academy of Sciences, was approved as the editor-in-chief of the Fan va Turmush magazine. Starting from 2023, Fan va Turmush magazine will be published on the basis of this Center in three languages - Uzbek, Russian and English, 4 issues a year. This Journal covers the domestic and world science and technology news, the most important scientific results and innovative developments of domestic scientists, and also publishes interviews with well-known scientists on the scientific topics they develop. Academicians of the Uzbekistan Academy of Sciences, other well-known scientists and representatives of the public of Uzbekistan and leading foreign scientists are actively participated in the work of the Fan va Turmush magazine with their popular science articles.

The Center for Promotion of Science Uzbekistan Academy of Sciences congratulates the Fan va Turmush magazine on its glorious anniversary - the 90-th anniversary of its creation, and also invites the Uzbekistan Academy of Sciences scientists and Universities professors to cooperate with the Fan va Turmush magazine with their interesting popular science articles and speeches on topical problems of domestic and world science, the history of science, new scientific discoveries and their practical application.
