Exhibition "InnoWeek-2019"

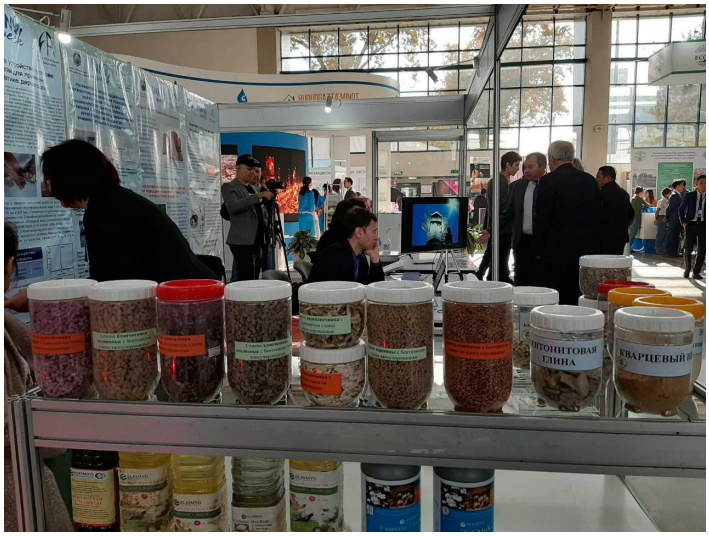

On October 29, 2019, the second International InnoWeek-2019 Innovation Ideas Fair, organized by the Ministry of Innovative Development of the Republic of Uzbekistan, began its work.

The fair is attended by research institutions of the Academy of Sciences of the Republic of Uzbekistan with their developments, including the results of the commercialization of technologies in accordance with Decree of the President of the Republic of Uzbekistan No. 3855. The fair will help to inform the public about the achievements of domestic science and education and will play an important role in social economic development of our country.
