

# International scientific journal "Chemistry of Natural Compounds"

International scientific journal "**Khimiya Prirodnih Soedineniy**" was founded by Academy of Sciences of the Republic of Uzbekistan. The journal has been published since 1965, re-registered by the Uzbek Agency for Press and Information on December 22, 2006 (certificate No. 0062).

The journal is translated into English as "**Chemistry of Natural Compounds**" (ISSN 0009-3130 - print, 1573-8388 - online) and published by Springer (America).

The international scientific journal "**Chemistry of Natural Compounds**" is currently one of the leading print media of national and foreign phytochemists.

**Languages.** Russian and English.

The purpose and objectives of the journal. Familiarization of a wide range of specialists, researchers, masters and doctoral students of research institutes with the latest developments and achievements in the field of chemistry of natural compounds.

Increasing the scientific level of published materials by improving the review of manuscripts and attracting new highly qualified specialists increasing the prestige of "Chemistry of Natural Compounds" scientific journal on the international level.

**Publications fields.** The journal publishes articles in Russian and English on the isolation, structure determination, synthesis and chemical transformations of natural organic compounds and the study of the relationship between their structure and activity.

Unique features of the journal. The journal publishes reviews, experimental articles and brief reports on 54 sections of organic chemistry (low molecular weight compounds - alkaloids, terpenoids, flavonoids, lactones, acids, etc., high molecular weight compounds - carbohydrates, lipids, proteins), as well as the biological activity of the selected natural compounds: antiarrhythmic, cytotoxic, antioxidant, antimicrobial, antibacterial, etc.

At present, a volume of the journal "Chemistry of Natural Compounds" contains 17-18 p.s.

Distribution. In more than 40 countries of the world (print and online versions of the journal Khimiya Prirodnih Soedineniy and Chemistry of Natural Compounds).

According to Springer Publishers, **Chemistry of Natural Compounds** journal ranks 7th among the 200 journals translated by the Publisher and 35th among 500 academic journals in the world.

**Chemistry of Natural Compounds** has an impact factor since 2001.

Financing. At the expense of a subscription in Uzbekistan, and Springer Publishers.

*Editor-in-Chief*

**Sagdullaev Shamansur Shakhsaidovich**

**Date of birth:** May 24, 1951

**Place of birth:** Tashkent

**Science field:** Engineering

Director of the Institute of the Chemistry of Plant Substances, Academy of Sciences, Republic of Uzbekistan, from 2006 up to present.

Doctor of Technical Sciences, Professor. A prominent scientist in the development of industrial technologies for the production of drugs, bioreactants, dietary supplements from natural plant materials and technologies for the production of synthetic drugs. Experienced organizer of new pharmaceutical productions for the processing of medicinal plants and generics.

He graduated from the Tashkent Polytechnic Institute (Faculty of Chemical Technology) in 1973 with a degree in "Technology of basic organic and petrochemical synthesis" and qualification of an engineer-technologist.

He worked as a shift manager at the liquid detergent workshop at the Almalyk Household Chemicals Plant from 1973 to 1974.

He began his scientific activity in 1975 at the Institute of Chemistry of Plant Substances of the Academy of Sciences of the Republic of Uzbekistan (ICPS AS RUz) first as a senior laboratory assistant, then a junior researcher at the experimental-technological laboratory. Since 2006 he is a Director of the Institute of the Chemistry of Plant Substances of the Academy of Sciences of the Republic of Uzbekistan, and a Head of Technology Department.

He is an Author of over 250 papers, including 17 technological, experimental-industrial and industrial regulations, 4 monographs, more than 30 pharmacopoeial and temporary pharmacopoeial articles, 50 patents.

Sh. Sh. Sagdullaev participates in the state certification of scientific and scientific-pedagogical personnel; he is a member of two Specialized Councils of the ICPS and IBOC, AS of the Republic of Uzbekistan. He was awarded the Shukhrat medal (2006), the order "Fidokorona Hizmatlari Uchun" (2011). In 2007 with a group of co-authors he was awarded the State Prize of the Republic of Uzbekistan of I degree in science and technology for the development and creation of a new domestic antiarrhythmic drug allapinin, its the introduction into clinical practice and the organization of batch production.
